Allowable Subject Matter

10. Claims 1, 14-24, and 29-30 are allowed.

11. The following is an examiner's statement of reasons for allowance:

While the closest prior art, Brown et al. (US 2004/0086743 A1), Kita et al. (JP 2003/109758 A), and Kobayashi et al. (WO 03/084973 A1), teach a variety of platinum phenylpyridine complexes the reference do not teach or suggest the complexes of instant formulae (7) or (8) as presently claimed.

Kamatani et al. (US 2003/0059646 A1) and Kobayashi et al. (WO 03/084973 A1) both disclose carbazole as a substituent on phenylpyridine ligands in light-emitting complexes. The declarations filed 4 January 2010 and 27 September 2010 demonstrate unexpected results related to the position where the carbazole substituent is bound and for platinum complexes versus the iridium complexes, respectively, establishing the non-obviousness of the presently claimed complexes over these references.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
